

Carre's Grammar School Case Study

ABOUT CARRE'S GRAMMAR SCHOOL

Carre's Grammar School is part of the Robert Carre Trust and is a highly successful grammar school in the market town of Sleaford. They are boys in Years 7 to 11 and co-educational in the Sixth Form as part of the highly successful Sleaford Joint Sixth Form. They are delighted that Ofsted have recognised us as a Good school in March 2017.

SUMMARY:

- + Carre's Grammar School
- + Located in Sleaford
- + 815 Users

CHALLENGES:

- + No Regular Upgrades with Previous Solution
- + Previous Solution Had Inability to Integrate with Meraki BYOD Solution

ALTINET HELPS CARRE'S GRAMMAR SCHOOL PROTECT CISCO MERAKI INFRASTRUCTURE

Prior to speaking with Altinet, Carre's Grammar School were using Netsweeper; an Email and Web Filtering Solution provided remotely by Mouchel. The ICT Services Manager, Nathan Bowes, found that the existing system "was not being developed or upgraded" to meet their ever-changing network requirements. Furthermore, their existing supplier "was unable to provide a robust solution to support the schools new Cisco Meraki BYOD solution". After recognising that Nathan and his team needed a solution that provided them with regular updates fit for their network, Altinet helped introduce the Barracuda Email and Web Security Gateway. The main priority for Nathan and his team was to find a solution that would effectively support the Cisco Meraki BYOD application and be able to perform regular updates to ensure students and teachers are constantly protected online. It was important for Carre's to find a product that would sit between a device connection and the internet to protect and filter anything harmful that could come into the network, protecting students from any unsafe or inappropriate content.

“ Altinet provided effective communication, quality suggested solutions and prompt support to our team. ”

NATHAN BOWES

ICT Services Manager, Carre's Grammar School.

ABOUT ALTINET

Altinet is a specialist IT Security and Storage value added reseller (VAR) for IT infrastructures. We work with our clients in both public and private sectors to design and implement a wide variety of solutions to meet the ever-changing IT landscape.

Our experience and expertise in the IT Security and Storage Industry allows us to work in a consultative way with our customers to ensure best practise and latest technology protect the users and networks of our valued clients.

We work with a wide range of global market leading vendors to ensure that each one of our customers has the solution that meets their individual requirements on each project.

ABOUT THE BARRACUDA WEB SECURITY GATEWAY

The Barracuda Web Security Gateway lets organizations benefit from online applications and tools without exposure to web-borne malware and viruses, lost user productivity, and misused bandwidth. As a comprehensive solution for web security and management, it unites award-winning spyware, malware, and virus protection with a powerful policy and reporting engine. Advanced features ensure that organizations adapt to emerging requirements like social-network regulation, remote filtering, and visibility into SSL-encrypted traffic.

ABOUT THE BARRACUDA EMAIL SECURITY GATEWAY

The Barracuda Email Security Gateway is an email security gateway that manages and filters all inbound and outbound email traffic to protect organizations from email-borne threats and data leaks. As a complete email management solution, the Barracuda Email Security Gateway lets organizations encrypt messages and leverage the cloud to spool email if mail servers become unavailable.
